The Luxembourg-Dublin route maintained for 2014-2015 winter season

Due to the ever growing success of the Luxembourg-Dublin route after its relaunch last spring, Luxair Luxembourg Airlines is happy to confirm that it will maintain its flight plan to the Irish capital for next winter.

The decision to continue the Luxembourg-Dublin route for an extra season is in-line with Luxair's current strategy, which aims at making services meet clients' expectations. Since its relaunch, this route has been widely used by business passengers, notably in the financial sector and fund industry, but it also remains very popular with leisure passengers and Irish nationals living in Luxembourg.

A clear fare structure

As with all our other regular Luxair routes, a clear and flexible pricing scheme is in place to provide greater freedom to business passengers and the best value for money for those in search of a quick affordable break.

An ideal flight schedule

The flight plan will remain unchanged, providing convenient and regular links to the Irish capital from Findel, Luxembourg. Tickets are already on sale.
